**DETAILED ACTION**

Claims 1-3, 18-33 , 38-52 are pending.

The rejection of claims 1, 3, 22 and 32 under 35 USC 112 first para still stands.

Applicants have not shown how any and all the hetero cyclic groups have the same properties.

It is clear that a

in WO 2001087845 are usefully in treating CNS disorders.

and imidazoles with a different het group such as

are Y Y5 receptor antagonists as given in US 6444687.

Thus changes in het rings and positional changes do make a difference in the properties and bonding.

A thiophene is not equivalent to pyridine or a quinoline.

The specifications also do not provide any data that these compounds do treat cancers!

***New Rejections******Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Art Unit: 1625

Claim 51 is rejected under 35 U.S.C. 101 because it lacks utility.

The claim recites inhibiting farnesyltransferase!! That is has no utility unless it is treating a certain disease.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 formula recites the limitation "R8" in the formula. There is insufficient antecedent basis for this limitation in the claim.

There is no definition in claims as to what the R8 is !

Claim 28, 31 recites no limitations of "cyano" group in the compounds. There is insufficient antecedent basis for this limitation in the claim.

The claim 27, 31 clearly states R18 is a cyano. and also claim 18 indicates that R4 to R6 is a cyano !.

***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1, rejected under 35 U.S.C. 102(b) as being anticipated by US 5030644 Baldwin et al .

The reference discloses compounds wherein R3 is an aryl.

Art Unit: 1625

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Brain Phillips et al

It discloses

These compounds read on the compounds of the invention.
